WOOD SLAT VENETIAN BLINDS

THE NATURAL BEAUTY OF REAL WOOD BLINDS

For more than 25 years we have been producing beautiful well-crafted wood blinds, with each piece custom finished to your exact size by our team of experienced craftspeople.

Evoking the timeless beauty of nature, our wood blinds are designed to make a style statement in any room. Our smooth grained timber comes in a range of natural wood shades and contemporary painted finishes allowing for a superior styling that's pleasing to the eye.

Create your own personal style by blending your chosen wood blind with our range of ambient tapes. Simply select the tape size and colour which best suits your decor style and we'll create your blind especially for you.

PRODUCT GUARANTEE

WOOD VENETIAN BLINDS are NOT Blackout Blinds.

NATURAL WOOD SLATS:

May contain variations in grain, base colour and texture. There is a possibility of some minor warping of slats. These natural characteristics are not considered a fault in the timber.

COLOUR: Variation is possible from batch to batch. Whilst we try to complete orders from the same batch, if this is not possible the closest match will be supplied. If blinds are used for Bay Window sets or are Side-by-Side this must be notified at the time of ordering.

COLOUR FADING:

The UV protective coating applied on the slats is guaranteed for 1 year from date of production. Beyond that period some deterioration or fading may occur depending on local conditions.

TAPES:

Are made from a mixture of fibres and are not guaranteed against colour fading.

OPERATING COMPONENTS:

Headrails, mechanisms, cords etc. are guaranteed for 2 years from date of production, subject to normal use and general wear & tear.

Any re-assembly, cutting, trimming or alterations not carried out by Styleline Blinds, may invalidate this guarantee.

CHILD SAFETY:

Devices supplied separately are replaceable components. Please ask for details.

NOTE:

We reserve the right to modify the specification or components as required, without advance notice.

Photographs used in SLX literature etc. are illustrative and may not match finished production blinds.

CHILD SAFETY

All SLX Blinds are designed with Child Safety in mind to ensure that they can be operated in a safe manner to protect your children and pets.

Unrestrained cords, loops and chains are a potential hazard to young children who may become entangled in them. To avoid this possibility we do not use chains or hazardous loops in the manufacture or specification of our natural wood blinds and we supply safety cleats as standard with every wood blind, along with recommendations for safe use.

SLX Wood blinds comply with all window covering legislation and meet European safety standards EN 13120: +A1:2014
