

Solar Powered Skylight Blind

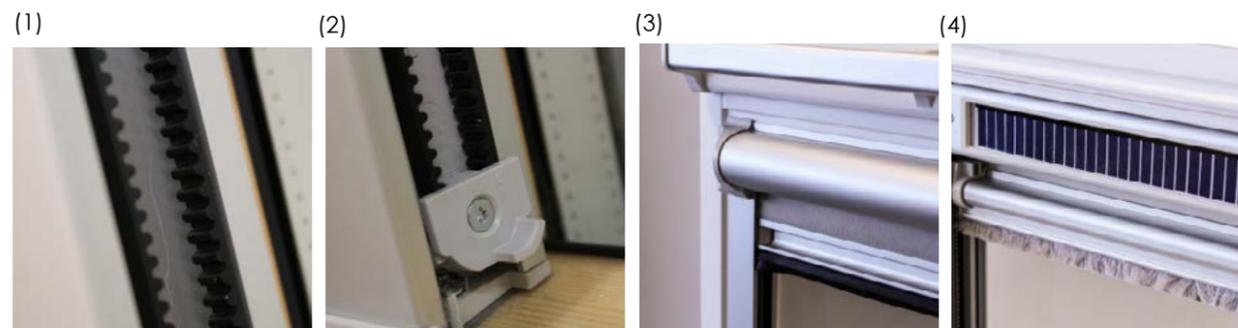

Bloc Solar Powered Skylight blinds can enhance the performance of roof windows, particularly in hard to reach areas. Compatible with all major skylight brands.

Harnessing the energy from the sun via a discreet solar panel. The solar panel is designed to charge the battery during daylight hours throughout the lifetime of the blind. In the event of no sunshine, the battery will last for 300 operations.

Installation of the blind couldn't be simpler. Our 6 screw system means installation is easy and mess free.

Our solar powered skylight blinds are suitable for the following roof window types:

VELUX®
DAKSTRA®
FAKRO®
ROOFLITE®
ROTO®

Bloc Blinds incorporate a number of specially developed features that make our skylight blinds superior to others on the market. (1) The tracks in the siderail connect them to the handle. (2) The belt tensioner means the tension has been pre-set at point of manufacturing leading to

easier installation. (3) The fabric is completely enclosed, reducing fading and significantly extending the life of the fabric. (4) The discreet solar panel harnesses and stores the sun's energy using it to operate the blind.

Frame Colour Options

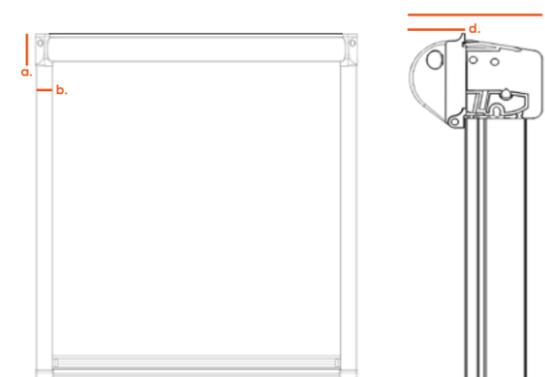

Anodised Silver
Natural Finish

Operation, Care and Maintenance

Operation

Operation of the blind is via remote control. Available with single or multi-channel.

Care Instructions

We are all very proud of our stunning Solar Powered Skylight blinds. To keep them looking their best for years to come, always ensure that your blinds have been securely fitted and use a synthetic or feather duster to clean, refrain from using soap and water. Should any part of the blind fail contact our dedicated Customer Service team who will be happy to assist you.

Maintenance

All our Solar Powered Skylight blind components are manufactured using aluminium and glass reinforced nylon. They do not present any corrosion problems in normal environments. The system has been designed for smooth operation, together with rigidity to prolong the window blind's working life. Manufacturing and installation guidelines for the size restrictions for each type of installation are included in this specified brochure.
